为什么要买贵金属

Safely store wealth outside the banking system

安全地将财富储存在银行系统之外

Gold and silver bullion, stored outside the financial system in a safe jurisdiction, is a wealth insurance and a crisis hedge that will protect you in the worst of situations.

储存于金融体系之外一个安全管辖区的贵金属，是一种财富保险和危机对冲工具，在最坏的情况下也可能保护您的人身安全。

Although bullion does not generate fiat interest, preciousness lies in the fact that it is a scarce commodity that cannot be created out of thin air, thereby increasing in real value over time. As the major world currencies such as the US dollar, yen, euro and the Chinese Yuan devalue their currencies through extremely low interest rates and massive currency creation, the real purchasing power of fiat currencies is eroded despite interest payments.

尽管贵金属不会产生法定利息，但其珍贵之处在于，它是一种稀缺商品，不能凭空创造出来，因此随着时间的推移其实际价值会增加。由于低利率和大规模印刷，美元、日元、欧元和人民币等世界主要货币都已贬值，所以尽管对其支付了利息，但法定货币的实际购买力还是被削弱了。

The US dollar, for example, has lost over 98% of its purchasing value since 1913, whereas gold has increased (in dollar terms) by a factor of 60 over the same time period. Throughout history, excessively debased currencies will eventually become worthless and unsustainable debts will eventually be defaulted upon; but physical gold and silver, despite short-term price fluctuations, will endure as a reliable store of value as they have for over the last 4,000 years.

以美元为例，自1913年以来，其购买力已经损失了98%以上，而同期黄金(以美元计算)却增长了60倍。纵观历史，过度贬值的货币最终将变得一文不值，无法承受的债务最终将会被拖欠；但实物黄金和白银，尽管其价格会存在短期的波动，但仍将像过去4,000年一样作为可靠的价值储备而存在。

As we are entering times of financial turbulence and as more people realize the extent of our global financial fragility, it is only prudent to protect some of your wealth through the physical storage of gold or silver outside the banking system. If no significant crisis occurs you will be hardly worse off, but if a currency or banking crisis does occur, your physical bullion will be a financial lifesaver.

随着我们进入金融动荡时期，随着越来越多的人认识到我们全球金融的脆弱性，只有谨慎地将黄金或白银储存在银行系统之外，才能保护您的一部分财富。如果没有发生重大危机，您的情况不会变得更糟，但如果确实发生了货币或银行业危机，您的实物金银将会成为您的救星。

Our fully owned value, The Safe House

我们拥有的全部价值, The Safe House

Motivated by our strong desire to protect the wealth of our customers we built our very own vault in Singapore called The Safe House. Guarded by armed Singapore auxiliary police, it has the capacity to store over 600 tons of precious metals.

出于对保护客户财富的强烈愿望，我们在新加坡建立了自己的保险库，名为“The Safe House”。由全副武装的新加坡辅警把守，能储存超过600吨的贵金属。

The Safe House is a tax-free customs zone, ISO 9001 certified, has one of the industry's most comprehensive insurance policies and comes with an integrated DUX testing lab.

The Safe House是一个免税区，通过了ISO-9001认证，拥有行业中最全面的保险之一，并带有一个集成的DUX检测实验室。

The Safe House eliminated the need to outsource to third party, globally operating, vault operators thereby avoiding the legal ambiguities of what would happen to stored bullion in case of a US or EU nationalization.

“The Safe House”消除了将保险库运作外包给第三方跨国运营商的需求，从而避免了在美国或欧盟国有化个人资产时，针对被存储贵金属，出现适用法律模棱两可的情况。
